

DM25 | Diamond 25 Laptop Safe

Spacious and Secure

The Diamond 25 was designed to meet both the hotel industries high security standards as well as every hoteliers budget.

It offers the guest the best of both worlds. Its user friendly keypad makes it easy to open and close. It also offers enough space to fit a standard 17" size laptop, along with smart devices and personal belongings. This safe is perfect for anyone traveling for business or on vacation as it ensures their valuables will be secured while out at conferences or on all day excursions.

The Diamond 25 can be easily opened or closed using a 3-6 digit code or by using a card with a magnetic strip (i.e. driver's license). The keypad is ADA compliant and has audit trail capabilities. This safe is available in black or cream.
