

DM20 | Diamond 20 Safe

Compact and Convenient

The Diamond 20 safe offers the solution to those tight spaces. It still offers the convenience of holding a 13" laptop and multiple smart devices, along with documents.

The Diamond 20 can be easily opened or closed using a 3-6 digit code or by using a card with a magnetic strip (i.e. driver's license). The keypad is ADA compliant and has audit trail capabilities.

This safe is available in cream or black. It is compatible with the CEU handheld device.
