

## DMWALL Diamond Wall Safe

### Comfort and Space

The Diamond wall safe is designed to fit perfectly into the wall of a closet or hotel room. It is protected by a sturdy frame. It has all the same features of the diamond series: user friendly 3 to 6 digit code or opens using a card with magnetic strip, it also has audit trail capabilities.

This safe is perfect for any business person or traveler to store their important documents or smart devices. This safe is compatible with the CEU handheld device.
